

www.arfinnmed.com

Benefits and Features:

- > Generate detailed reports based on efficacy of treatments, dosages, medicinal cannabis profiles, timelines for improvement, and other filters assimilated from our network.
- > Take advantage of our free electronic medical records services.
- > Keep your patients engaged and monitor their treatment via the auto-texting update feature and a free patient portal.
- > 24/7 Customer support
- > Join groups and forums pertaining to your interests and medical specializations.
- > Keep up-to-date with the latest news and research regarding state regulations and medical cannabis.
- > Improve your practice's visibility by being featured in our Participating Physicians Directory.
- > Access medical marijuana patient informational videos to display in your office or waiting room.

We are a **free EMR** and medical marijuana platform that allows physicians to safely and securely keep patient records, while also creating dosing reports. Physicians can schedule appointments, create exam note templates, and even **receive treatment progress updates from their patients via a text message that will automatically update patient records**. Contact us today to learn how to quickly integrate Arfinn Med into your practice!
